 2. square footage of building*
 3. percentage of lot covered by building, landscape, and parking

4. number of parking stalls available (when required)
5. zoning designation of property
6. Accessible “path of travel” to front door and parking from public right-of-way (when required)

*Note: If CUP is for a second-story room addition, please include the square footage of the existing first floor, any existing second floor, and of any addition to both the first and second floors.

Building Elevations (any one, two, or all three items, as applicable)

- a. Illustrative building elevations showing all sides of the structure
- b. Material and color sample board
- c. One set of colored elevations

Floor Plans (for all projects)

- a. Must be drawn to scale and show the location of all interior uses.

6. Preliminary Water Quality Management Plan (P-WQMP)

- a. All new development and redevelopment projects must submit a P-WQMP with the exception of one single-family detached residence, unless the City of Yorba Linda determines otherwise.
- b. Guidelines for preparing and submitting a Preliminary WQMP are available at the counter.
- c. The following projects are considered “Priority Projects” and must submit a Priority Project WQMP:
- d. New development projects that create 10,000 square feet or more of impervious surface. This category includes commercial, industrial, residential housing subdivisions, mixed-use, and public projects on private or public property that falls under the planning and building authority or the Permittees.
- e. Automotive repair shops. This applies to facilities that are categorized in any one of the following Standard Industrial Classification (SIC) codes 5013, 5014, 5541, 7532-7534, and 7536-7539.
- f. Restaurants where the land area of development is 5,000 square feet or more including parking area. This category is defined as facilities that sell prepared foods and drinks for consumption, including stationary lunch counters and refreshment stands selling prepared foods and drinks for immediate consumption (SIC code 5812).
- g. Hillside development greater than 5,000 square feet. Hillside development is defined as any development which is located in an area with known erosive soil conditions or where the
- h. Impervious surface of 2,500 square feet or more located within, directly adjacent to (within 200 feet), or discharging directly into receiving waters within Environmentally Sensitive Areas (ESAs).
- i. Parking lots 5,000 square feet or more including associated drive aisle, and potentially exposed to urban stormwater runoff. A parking lot is defined as a land area or facility for the temporary parking or storage of motor vehicles used personally, for business, or for commerce.
- j. Streets, roads, highways, and freeways. This category includes any paved surface that is 5,000 square feet or greater used for the transportation of automobiles, trucks, motorcycles, and other vehicles.
- k. All significant redevelopment projects, where significant redevelopment is defined as the addition or replacement of 5,000 or more square feet of impervious surface on an already developed site. Redevelopment does not include routine maintenance activities that are conducted to maintain original line and grade, hydraulic capacity, original purpose of the facility, or emergency redevelopment activity required to protect public health and safety. If the redevelopment results in the addition or replacement of less than 50 percent of

the impervious area on-site and the existing development was not subject to WQMP requirement, the numeric sizing criteria only applies to the addition or replacement area. If the addition or replacement accounts for 50 percent or more of the impervious area, the Project WQMP requirements apply to the entire development.

1. Retail Gasoline Outlets (RGOs). This category includes RGOs that meet the following criteria: (a) 5,000 square feet or more, or (b) a projected Average Daily Traffic (ADT) of 100 or more vehicles per day.

***If the project does not meet any of the above listed, the project is a "Non-Priority Project", and must submit a Non-Priority Project WQMP.**

RADIUS MAP EXAMPLE: At least 27 lots would be included in the Property Ownership list for a project application for the shaded lots, including:

- Lots 4, 5 and 12 along the right side of this sample map
- Lot 6 in the top center and lot 1 to the top left corner
- Any lots that shared property lines with lots 8 or 9 in the lower center

The radius required for the public hearing Radius Map is measured by traversing 300 lineal feet from every corner extremity of the subject property. All properties within this radius, even if they merely intersect the radius line, must be included in the Property Ownership list.
