PUBLIC WORKS / ENGINEERING

Rough Grade Certification

The City of Yorba Linda requires a licensed Professional Engineer to submit a **wet signed and stamped** rough grade certification prior to the issuance of building permits.

Project Name: _____ Tract/Parcel No. _____

Project Address: _____ Grading Permit No. _____

Permitted Earthwork: Cut _____ CY; Fill _____ CY Lot(s): _____

I hereby approve the rough grading for the above referenced project in accordance with my responsibilities under Orange County Grading and Excavation Code and City Grading Code. I confirm that the site was graded in accordance with the accepted grading plan including location of property corners for proper building location, completion of retaining walls, location and slope ratio for all manufactured slopes, construction of earth berms, installation of all drainage devices, location and elevation of building pads and positive building pad drainage. The placement of the building pad and the pad elevation as shown below are in conformance with the grading plan as accepted by the City of Yorba Linda. The building pad is suitable for building construction as related to the preceding items and conforms to the standards of care for grading practices and tolerances.

The volume of earth materials moved by cut and/or fill grading agrees does not agree with the permitted earthwork stated on the grading plan. The revised volumes of material moved are:

Cut _____ CY, Native Fill _____ CY, Import _____ CY

A field inspection was performed and the pad was graded to be in conformance with the plan as follows:

| Lot No. | Plan Elevation | As-built Elevation | Lot No. | Plan Elevation | As-built Elevation |
|---------|----------------|--------------------|---------|----------------|--------------------|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

Note: Any deviation of more than plus or minus 0.1 ft must be justified by the Engineer-of-Record
