Erate YR 2022 (YR25) Questions and Answers

RFP 22-105 Category Two Equipment

Please see below all questions received for Erate YR 2022 (YR25) RFP with answers highlighted and underlined in YELLOW.

Questions:

1 - What level and term of DNA subscription is required?

No DNA subscription required.

2 - What level and term of any SMART NET is required?

No Smart Net required.

3 - Do you require redundant power supplies for all switches?

No redundant power supplies required.

4 - Do you require and additional Power Stacking and Data Stacking Cables included with each switch or will these be all purchased as SPAREs listed in bid?

No additional stacking cables required.

5 - Do you require SSDs to be included with the C9300 switches?

No SSDs required.

6 - Do you require any Network Modules to be included with the **C9300** switches? If yes, please provide the desired NM SKU?

No network modules required.

7 - What will you be using the **N9K-C93180YC-EX** Series Switch for? Data Center Server connections or Network Access Distribution/Core? If used for Access Distribution/Core, would you accept an alternative Cisco Series switch better suited and lower cost for this in the **Catalyst C9500** series line of switches? If used for Data Center, would you accept the updated SKU of **N9K-C93180YC-FX3** as the **N9K-C93180YC-EX** will be End of Life soon and no longer available for purchase after August 2022?

Please include the model that was listed in the rfp.
